## Fitness Mirror Applications

Lympo Squat fitness app uses human pose AI technology and the front camera to help users to perform squat exercises, tracking 17 points on the human body in order to analyze a user's squatting performance and provide real-time feedback.

Lympo Squat leverages gamification and cryptocurrency to keep users exercising over the long term. In addition to earning cryptocurrency for every set of squats, the app includes gamified features designed to motivate users to develop the habit exercising regularly.

### 21.5" Magic Fitness Mirror
